Summary

Recent Computer Engineering graduate with experience in Web and Android App development, Java, and API integration. Skilled in problem-solving and teamwork, seeking opportunities to apply my technical knowledge in a dynamic environment.

Education

Bachelor of Engineering (BE) in Computer Engineering June 2020 - May 2024
Sinhgad Institute of Technology, Lonavala | CGPA: 8.26/10

Higher Secondary Certificate (HSC) July 2019 - Feb 2020
Vidyadham Jr. College Of Science, Shirur | Percentage: 76.92 %

Secondary School Certificate (SSC) July 2016 - June 2018
New English School, Supa | Percentage: 89.60%

University Projects

E-commerce Application | *Java, Android Studio, XML, Kotlin, RoomDB, Firebase, Razorpay Web Service.*

- "Malaganga Dairy App" - I developed this e-commerce Android application to streamline milk delivery services for local users.
 - Using Java, Kotlin, and Firebase, Developed features like secure user authentication, product browsing, order placement, and integration of multiple payment options through the Razorpay API.
 - This project taught me how to implement object-oriented programming in the real world.
- See Project**

Portfolio Website | *Angular, HTML, CSS, Bootstrap, JavaScript, Git, GitHub*

- A personal portfolio website built using Angular to showcase my projects, skills, and experience. It features a responsive design, smooth navigation, and integrated profile links.
 - Implements the Angular skills.
- See Project**

Skills

Technical Skills: Java, Object Oriented Programming, SQL, Javascript, HTML/CSS, Angular, Firebase

Tools & Platforms: Android Studio, Git, GitHub, Canva, Notion, Microsoft (Excel/Word)

Soft Skills: Active Listening, Fast Learner, Collaborative, Good Observation, Attention to details

Certifications & Training: Java OOP's, SQL, Git& GitHub (Linkedin Learning), MSCIT (84%)

Languages: Conversational in English, Fluent in Hindi, Marathi

Activities

- **Head of Technical Team, ACM (Association for Computing Machinery)**
 - Led the technical team in planning and managing ACM events.
 - Organized workshops, coding competitions, and tech talks.
 - Coordinated event logistics to ensure smooth operations and high engagement.

Additional Interest

- Share Market Analysis
- English Typing
